jpitzen@mates.org

COURSE DESCRIPTION

This 4 day course covers all aspects of survival in accordance with the newest regulations prescribed by IMO and the United States Coast Guard. The underway training takes place aboard a contemporary 40 person motor enclosed lifeboat.

The Pacific Maritime Institute is pleased to partner with The Northwest Maritime Academy to offer Lifeboat / Proficiency in Survival Craft Training in Seattle, Washington and the Puget Sound area. Lifeboat technology has changed dramatically over the last 20 years. We chose The Northwest Maritime Academy as they train on up to date / modern equipment that is abreast of the latest changes in vessels, launching appliances and hook release systems.

COURSE SUBJECTS:

- EPIRB
- STCW and emergency stations
- Abandon ship
- Boat work under oars
- Launching appliances
- SOLAS regulation
- Life rafts
- Ancillary equipment
- Lifesaving signals
- First aid

For more information on how MITAGS-PMI can develop a "turn-key" training solutions for your organization, please call Gregg Trunnell at (206) 838-7422 or e-mail gtrunnell@mates.org.

EXPERIENCE IS EVERYTHING

The Northwest Maritime Academy Training Programs represent years of excellence, directly reliable marine and training methodology experience. Our team has been assembled precisely because of the various members' reputation and industry credibility. Our lifeboat course is approved by the US Coast Guard fulfill all STCW requirements. We offer a selection of classes including fast rescue boat, Water Rescue training, Computer-based training and Team-Building training. Our main campus and headquarters is located in Gig Harbor Washington. Our PSC/PSCRB and FRB training programs are conducted at Terminal 91 in Seattle.

We have a geographic advantage for our on-site training programs for use of a variety of navigation areas surrounding our training facilities. A multi-dimensional approach to marine training and certification.

STCW PROFICIENCY IN SURVIVAL CRAFT (LIFEBOAT)

This course covers all aspects of survival in accordance with the newest regulations prescribed by IMO and the United States Coast Guard. The underway training takes place aboard a contemporary 40 person motor enclosed lifeboat. This course is conducted over four (4) Days.

- 1. Subject Matter Experts:** The Northwest Maritime Academy employs a team of training experts with intimate real world expertise of safety issues and requirements on ships and oil platforms around the world. We have taken this industry knowledge and developed a course using the IMO guidelines designed for the modern mariner.
- 2. Safety:** There have been many lifeboat accidents around the world that took place while the crew was training. The Northwest Maritime Academy only trains on certified equipment. Our Technicians follow the same service and inspection guidelines required for life-saving equipment aboard a ship.
- 3. Latest Technology:** Lifeboat technology has changed dramatically over the last 20 years. The Northwest Maritime Academy uses up to date equipment and is abreast of the latest changes in vessels, launching appliances and hook release systems.
